“US government at the highest levels may have committed treason and mass murder by purposely allowing 9/11 to happen.”

- Dr. Robert Bowman, Colonel US Air Force (Retired)

“the official story is a BIG LIE . . . support 911Truth.org”

- Kevin Danaher, Co-Founder of Global Exchange

“step back and look at how it all began . . . support groups like 911Truth.org”

- Medea Benjamin, Co-Founder CodePink: Women for Peace

“(did Bush et al.) fail to prevent 9/11 out of gross incompetence or because they were looking for an excuse to go to war (and) seize Middle East oil . . . ?

The commission’s focus was damage control, not discovery of the truth.”

- US Green Party

- ★ Key officials in the Bush admin. were members of The Project for the New American Century. Before Bush’s election, their manifesto called for a huge new military buildup and domination of the Middle East. They admitted this transformation “would take forever absent some catastrophic and catalyzing event - like a new Pearl Harbor.” (or a 9/11?)
- ★ FBI Agents urgently warned FBI headquarters of imminent attacks before 9/11. Their warnings were suppressed. In fact, acting FBI Director, Thomas Pickard, was told by Attorney General Ashcroft he did “not” want to hear terrorism reports
- ★ Despite the flood of warnings about coming attacks before 9/11, US air defense systems failed massively, “violating standard plane intercept procedures of either the FAA, DOD, or both.”
- ★ Bush tried to block **and** limit the 9/11 investigations from day one
- ★ To this day no one has been held accountable for suppressing FBI reports **or** for the massive air defense failures of 9/11

Before one more war is fought, one more right is lost . . . We must demand a new investigation, a criminal investigation of this tragedy.

Peace, justice and democracy all demand 9/11 truth.
